WE STARTED WITH  
**THIS.**

THEN WE SHOWED  
WHAT IT COULD  
**BECOME.**

CHAPTER  
**17** STARS AND THE SOLAR SYSTEM

Paheli and Boojho visited their grandparents' village during the summer break. After dinner, they went on to the roof of the house. It was a clear cloudless night. They were surprised to see a large number of bright stars in the sky. They had never seen such a beautiful scene in their city (Fig. 17.1).

Fig. 17.1: Night sky

Paheli wondered, why the village sky was so different from the night sky in big cities? Her grandfather explained that due to bright light, smoke and dust, the sky in big cities is rarely clear.

He also identified some objects seen in the night sky and told stories

associated with them. Night sky watching can be a fascinating experience at a place where there are no bright lights and the atmosphere is clear.

Look at the sky on a dark, clear night. You see the entire sky dotted with countless stars, some bright and some not so bright. Observe them carefully.

Do all of them appear to twinkle? Do you find any star-like object which does not twinkle? The objects which do not twinkle are planets.

The moon is the brightest object in the night sky. The stars, the planets, the moon and many other objects in the sky are called **celestial objects**.

# WHAT DID EDUCATORS **TAKE AWAY?**

“

AI should not replace teachers, but **make teachers more powerful** — from being a knowledge giver to becoming a learning facilitator.

— Educator

“

I learned how AI can be effectively used to make teaching more **engaging, creative, and efficient.**

— Educator

“

The session provided valuable insights into the **practical use of AI** in teaching and learning.

— Educator

“

It was an eye-opener on how AI can simplify our work and help us **focus more on students.**

EDUCATORS RATED  
THE SESSION

“

How AI is a **tool not a threat.**

— Educator

“

**I will use AI** in my teaching.

— Educator

“

Very **practical, relevant and inspiring** session.

— Educator

“

It gave me **clarity and confidence** to explore AI tools in my classroom.

THE BIGGER PICTURE

# AI DOESN'T REPLACE THE TEACHER. IT EXPANDS WHAT THE TEACHER CAN DO.

From being a knowledge giver to becoming a **learning facilitator**.

THEN

## Knowledge Giver

- Explains concepts
- Shares information
- Uses textbooks
- Teaches to the syllabus

NOW

## Learning Facilitator

- Designs richer learning experiences
- Uses AI to bring concepts to life
- Encourages exploration and curiosity
- Focuses on skills, thinking and real-world learning

SAME TEACHERS. BRIGHTER POSSIBILITIES.
